

Environmental Policy

Building a Future with Care

Environmental Policy

Prime plc takes a responsible interest in the environmental impact of its business activities, and aims to contribute to environmental improvement and sustainable development.

We are committed to preventing pollution to the environment and incorporating designs produced in conjunction with environmentally favourable solutions by means of a programme of continual improvement. In particular Prime plc will:

- Meet all relevant legislative and other requirements and where appropriate exceed or supplement these by setting our own exacting standards.
- Seek to reduce consumption of materials in our operations, reuse rather than dispose whenever possible promotion of recycling and the use of recycled materials.
- Ensure designers incorporate energy efficiency into new services, buildings and equipment and manage wisely in all options.
- Work in partnership with our suppliers, customers and other design disciplines to minimise the impact of operations on the environment.
- Work with external groups and organisations to promote the concepts and beneficial practices of environmental protection.

We welcome the ideas and initiatives of our employees so that our environmental performance can be improved. Our Policy and environmental objectives will be formally reviewed annually, or as significant change occurs, whichever is more frequent.

Leighton Chumbley

Chief Executive
